

QUODD *Equity+*

QUODD *Equity+* is a comprehensive workstation designed for the financial investment professional that offers a complete set of market data services and information bundled into a single desktop solution.

QUODD *Equity+* brings together streaming real-time quotes, dynamic market monitors and analytic charting tools with premium news, detailed company information, fundamental data, research, earnings estimates, filings, and much more.

Web-based

- ✓ QUODD *Equity+* can be accessed anywhere, anytime, by simply logging into our secure servers from any PC.
- ✓ Market data is also available on the go with QUODD's iPhone, iPad, and Android applications.

Easy-to-use

- ✓ All market monitors are customizable in terms of screen layout and market data.
- ✓ Users can simply right-click on any symbol to access all of QUODD's robust features and company-specific information.

Cost-effective

- ✓ QUODD *Equity+* has all the features you need and more, for a fraction of the cost of other market data providers.
- ✓ QUODD *Equity+* was designed as a web-based application, not retrofitted from legacy systems. As such, it is much easier to maintain and support, giving QUODD *Equity+* a cost advantage.
